Facilities Management All Employees Awards
April - June 2006
Presented July 28, 2006
Facilities Management’s 5th Annual Picnic

Employee of the Quarter
Roosevelt “DC” Speaks
Maintenance and Operations – Grounds

This award is presented to an individual with exceptional performance above and beyond expected duties, exhibits outstanding customer service, and demonstrates creativity and initiative that results in outstanding measurable outcomes over the course of the quarter. Recipients for this award will be submitted for recognition under the Governor’s Award for Excellence Program.

Roosevelt needs to be recognized for the plain and simple fact he always goes above and beyond the call of duty. Recently, he noticed that Pete Crainshaw from HVAC needed to attend to a chiller at RDH that was covered with leaves. He volunteered to remove the leaves from the surrounding area and from the chiller. He told Pete that if it was okay with me, he would get right on it. After receiving permission, he did just that. Roosevelt did such a thorough job, that Pete came to let me know just how much he appreciated the work he did and the enthusiasm he showed. Roosevelt is currently a temporary worker. He comes to work everyday with a positive attitude and willingness to tackle any task. The scenario listed above is just one of many where he has volunteered his assistance to anyone in need in our campus community.

Johnnie Doyle, Housekeeping  
*Customer Service Award*  
Nominated by: Kaja Richardson, UNCC Student

As for giving Mr. Doyle a recommendation for the Award for Excellence, a person must ask what it means to be a manager. In my response a manager would be able to manage his workers and working duties in a timely manner. But Mr. Doyle go beyond these expectations as of working the toughest shift and keeping his workers responsible for keeping Burson clean and respectable. I believe if the Burson’s knew that the person who kept the building named after them clean, they would be very pleased.

This team exhibited dedication for construction of new Denny electrical room to house the new switchgear. The team worked relentlessly to meet all deadlines. Their efforts culminated a new Denny electrical facility meeting the outage schedule as well as a substantial cost savings to the university.
The Library Zone & the Kennedy Zone operated more than 2 months without a direct supervisor. The level of cleaning never dropped and all assignments were carried out. I never had to respond to any situation that they could not handle. The Lead Persons along with the employees deserve an Award of Excellence.

Bonnie and Shem had been working non stop to get McEniry ready for summer school in early May. They would clean one area, and the next day it would need to be cleaned again. I was in the building Friday morning, May 12th, and the faculty and construction people were still making a mess. I thought there was no way they could have McEniry ready by the time they left at 11:45 that evening. I already had Brian’s permission to work an overtime shift on Saturday. When I came in Saturday morning my eyes couldn’t believe that Bonnie’s housekeepers and Shem’s floor men had completed the task. This saved about 30 hours of overtime pay, because I didn’t have to call in staff.

This made it easy to secure and maintain a high level of alert throughout the power outage. They stayed at their post throughout the fifteen hours they were present. I would also like to thank David Smith and the electrical department for keeping us informed at all times. I would be proud to serve with these men in any emergency capacity.

The team from the grounds department took a fairly complex landscape plan with planting beds for flowers and scrubs for the oval in front of the Chancellor’s residence, and installed it beautifully just in time for the Mint Museum Home and Garden Tour. Their dedication to complete the project and skill to install it result in a much improved approach to the home. The Chancellor’s wife was very pleased with their hard work and professionalism and is very happy with the results. It received many compliments and is seen every time the house is shown to the public on the University television channel.
