

## University of North Carolina at Charlotte Sample Waste Management Plan

(Can be used for draft and final waste management plan)

Project Name: \_\_\_\_\_  
 Job Site: \_\_\_\_\_  
 Contractor Name: \_\_\_\_\_  
 Sub Contractor: \_\_\_\_\_

Date: \_\_\_\_\_  
 Contractor Signature: \_\_\_\_\_  
 Sub Contractor Signature: \_\_\_\_\_

### 1 Project Wastes Landfilled

Landfill Site	Quantity Dumped (Tons)	Tipping/dump fee	Total Disposal Costs (includes hauling fees, rental fees, tipping fees, etc.)

### 2 Alternatives to Landfilling: Materials Salvaged, Reused, or Recycled

These are materials that were disposed of without going to the landfill.

Type of material	Quantity (Tons)	Reused on-site, Salvaged, Recycled	Destination (Recycling Company or Facility using material)	Cost of handling & transportation	Tipping/dump fee	Revenue	Net Cost
							\$0.00
							\$0.00
							\$0.00
							\$0.00
							\$0.00
							\$0.00
							\$0.00
							\$0.00

### 4 Means of keeping recyclables free of contamination

### 5 Meetings to be held to address waste management
