ACTION PLANS FOR IMPROVEMENT

Archibus - Design Services Customer Survey:

**INCREASED GOAL TO 95%**

Process Improvements using: Define, Measure, Analyze, Design, and Verify

- Project Compliance with State Construction Office (SCO)
- Inspection Compliance with State Construction Office
- Project Entry into Interscope Plus
- Project Documentation
- Project HUB Reporting

Actions taken by Members of the Design Services Team:

- Stop by Customers after the project is complete and in use to review how the renovated space is performing. Received excellent feedback.
- Keeping the communication lines open by email, phone and face to face works wonders. This helps with options going forward on other projects.
- Sending daily construction field reports has been working for one very “hands on” Customer.
- Hold weekly meetings on job site to discuss progress with Customer. Customers enjoy seeing the project and discussing any issues or concerns face to face.
- Each Customer is unique and so must be the way I communicate with them. Often it's face to face, other times email or a phone call.
- The process is simple to state, but difficult to master; effective communication is not easy.
