The project is for the construction of the New Charlotte Research Institute Entrance (CRI Entrance) to include grading, paving, striping, lighting, stormwater management, landscaping, and signage at a minimum. This project will be designed and constructed in accordance with provisions of SL 2007-546. The New CRI Entrance project will provide traffic and transportation improvements to UNC Charlotte by construction of a permanent roadway connection between Highway 29 and CRI Lot 3 in the location currently in use as a temporary construction entrance.
