Original Authorization: $2,500,000
Current Authorization: $2,500,000
Budget: $21,000,000

End User/Dept
Housing & Residence Life

SCO ID# 14-11473-01
Scott Hall is a 500 bed high rise resident facility built in 1969. Renovations to update the mechanical, electrical, information technology and plumbing systems are needed. The student rooms and rest rooms will be updated to modern standards. Windows and roof replacement are included along with American with Disabilities Act (ADA) modifications to assist students, faculty, staff and visitors within and around the building.

Past 30-90 Days
- Continued MEP rough-in, interior metal stud wall and ceiling framing, exterior precast panel replacement, exterior concrete repairs, exterior waterproofing, masonry, and window installation.
- Completed exterior precast panel connection repairs, sun shade demolition, and exterior brick veneer installation at NW & SW corners.
- Begun installing replacement sun shades and framing for West entrance.

30-90 Day Look Ahead
- Continue with the above work.
- Begin HVAC startup and interior finishes; remove back hall.
- Complete interior metal wall stud framing, elevator installation, window installation, and exterior precast panel replacement.

Issues/Problems
- Severe exterior concrete deterioration requires additional patch repairs (in excess of allowance) and demo & removal of 51 sun shades. Change order issued for demolition and replacement of sun shades with FRP panels to match existing sun shades.
- SCO identified requirement to add hose bibs in each private shower stall. AMM for door modifications in lieu of adding hose bibs was approved by SCO.
