Facilities Management Department
Policy Statement #4

Uniforms and Dress Code

1. Purpose
The purpose of this policy is to:
   A. Provide guidance for the issuance and wear of uniforms.
   B. Provide a dress code for employees who are not issued uniforms.

2. Intent
The intent of this policy is to provide clear guidelines so that employees of the Department present a professional image as we represent Facilities Management (FM) and UNC Charlotte to our students, faculty, staff and industry partners at all times.

3. Uniform Policy
The Department purchases uniforms to provide identification of Facilities Management employees for our customers, to reduce clothing expenses for employees, and to build teamwork and pride within the Facilities Management Department.
   A. Purchase of Uniforms: The Department will provide an annual uniform budget to work units based on the number of uniformed employees within the work unit. This amount will be determined based on annual funding availability. Each employee will be allotted an annual uniform allowance. Within the allowance, employees have discretion to purchase approved uniforms to meet work related clothing needs and appearance standards as approved by their supervisors.
   B. Uniform Wear:
      i. All employees will wear the prescribed uniform per this policy while performing their duties. All employees are expected to maintain a clean, neat, and well-groomed appearance at all times.
      ii. It is the responsibility of each supervisor to ensure that his or her employees are complying with the uniform and dress code policy. If an employee does not comply with the policy, he or she will be advised of the proper dress. If the employee fails to comply a second time, he or she will be asked to go home and change. Chronic problems may result in written counseling and formal disciplinary action from the supervisor.
   C. Uniform Management:
      i. Uniforms are the property of the University and will be turned in to the respective unit’s administrative office (Facilities Operations, Building Environmental Services, or Recycling) via the supervisor upon termination of employment from Facilities Management. Those individuals failing to return uniforms will be charged for the cost of clothing (if less than a year old) in their last paycheck. Only laundered and folded clothing will be accepted.
ii. Each manager / supervisor will manage the uniform program for his or her area of responsibility. Additional uniforms may be kept on site for distribution to new employees. A new employee should receive at least two sets of uniforms within their first week of employment. A set consists of one shirt and one pair of pants.

iv. As uniforms become worn and frayed, the employees will bring the old uniforms to the supervisor for exchange. The supervisor makes the final determination as to whether the uniforms are serviceable or need replacement. Returned uniforms will be recycled by the respective unit’s administrative office (Facilities Operations, Building Environmental Services, or Recycling) and used for rags.

v. Uniforms must be clean, pressed, neat, and wrinkle free at all times.
