The UNC Charlotte Recycling Department was established in 1992. Over the years, we have grown to 15 employees and collect over 40 items. In FY 2009 - 2010, we collected over 1.4 million pounds of recyclable materials.

Replenish. Rethink. Recycle.

**Our recycling team only picks up from these areas and does not pick up from individual rooms.**

For more information visit www.uncc.edu/recycling or follow us on:

---

**These can be recycled on campus.**

### In the Paper Bin
- We accept paper, chipboard and cardboard. Please break down cardboard and leave it by the indoor bins. If you are in an apartment, please put cardboard in the large bin located near the recycling center.

### In the Bottle Bin
- We accept bottles and jars, juice containers, plastic bottles and jugs. Juice containers should go in the bottle bin located in the residence halls. Please rinse materials before putting them in the bin. **We accept ALL plastics except #6.** Please look on the plastic material to indentify the number. We also accept aluminum and tin cans.

---

**Recycling center for apartment style residence halls.**

Some residence halls such as Hunt Village, Phase 3, Martin Village and Greek Village are responsible for taking their recyclable materials to the 30 yard recycling center located outside the building. The recycling center is broken up into 3 sections - Bottles, Cans and Paper / chipboard.

---

**Locations of outdoor recycling centers**

- Greek Village - Near trash compactor
- Moore - Behind building
- Sanford - Behind building
- Holshouser, Scott, and Hunt Village - Behind Holshouser
- Martin Village - Lot #5
- Lynch—Top corner of Lot #22
- Phase III and Phase IVA - Directly behind Phase III's V building, to the left of the volleyball court
- Phase V - Lower level of lot #16
- Witherspoon and Laurel - Lot between the two buildings

---

**Throw these items away**

Below are items that we **DO NOT** accept. Please discard them into the trash. They include pizza boxes, plastic food containers, bags, cups and plastic ware and Styrofoam cups.
