**ACTION PLANS FOR IMPROVEMENT**

**Archibus - Design Services Customer Survey:**

**Actions taken by Members of the Design Services Team & Results of Actions:**

- Stop by Customers after the project is complete and in use to review how the renovated space is performing. Received excellent feedback; this helps the design and finish options going forward on other projects.

- Keeping the communication lines open by email, phone and face to face works wonders.

- Sending daily construction field reports has been working for one very “hands on” Customer.

- Hold weekly meetings on job site to discuss progress with Customer. Customers enjoy getting to see the project and discuss any issues or concerns face to face.

- Each Customer is unique and so must be the way I communicate with them. Sometimes it's face to face, other times email or a phone call. It also depends on what needs to be discussed. The process is simple to state and difficult to master; effective communication is not easy.
